

# Quick Break Degreaser

The Trusted Choice for Industrial-Grade Cleaning Power

High-Concentrate  
Formula

Heavy-Duty  
Degreaser

Quick Break  
Technology

Cost-Effective  
Solution

## Industrial-Strength Cleaning with Environmental Care

**Quick Break Degreaser** is a **heavy-duty industrial degreaser**, expertly formulated to tackle the toughest grease and grime in automotive, machinery, and industrial environments. Solvent-free and biodegradable, it ensures superior cleaning performance while adhering to environmental and safety standards.

### QUICK BREAK TECHNOLOGY

Effortlessly separates  
grease from water for  
easy, eco-friendly  
disposal.

## Why Choose Quick Break Degreaser?

### Quick Break Formula

Advanced quick break technology separates emulsified grease from water, enabling easy disposal and compliance with environmental regulations.

### Heavy-Duty Degreasing Power

Designed to remove stubborn grease, oil, and grime from machinery, vehicles, and workshop floors.

### Fast-Acting Solution

Rapidly penetrates and lifts contaminants, reducing cleaning time and improving productivity.

### Concentrated Solution

Adjustable dilution for various cleaning needs, making it cost-effective and versatile.

### Eco-Friendly Composition

Solvent-free, biodegradable, and phosphate-free, ensuring safety for users and the environment.

### Transport Safety

Classified as non-dangerous for transport, making it easy and safe to store and ship.

## Why Industries Choose Quick Break Degreaser

**Quick Break Degreaser** has proven its superior performance in product trials with major mining and civil construction clients. It is now widely used by Tier 1 mining companies, trusted for its ability to handle the most demanding cleaning requirements while meeting environmental compliance.

## Applications

Quick Break Degreaser is versatile and powerful, making it suitable for a wide range of industrial applications:

### Vehicle Engines and Parts

Cleans oil and grease from engines and machinery parts efficiently.

### Workshop Floors

Removes stains, grease, and dirt, maintaining a safe and clean workspace.

### Tools and Equipment

Degreases tools, keeping them in optimal working condition.

### Heavy Machinery

Ideal for mining and construction equipment.

### Fleet Vehicles

Maintains clean, professional appearances for trucks and buses.

## Usage Instructions

1:9

### Vehicle & Machinery Cleaning

1. **Dilution: 1:9** (Mix 1 part Quick Break degreaser with 9 parts water)
2. **Application:** Use for general cleaning of vehicles and machinery to remove grease and grime effectively.

1:4

### Regular Cleaning

1. **Dilution: 1:4** (Mix 1 part Quick Break degreaser with 4 parts water)
2. **Application:** Suitable for stubborn grime on heavily soiled surfaces.

1:80

### Workshop Floors

1. **Dilution: 1:80** (Mix 1 part Quick Break degreaser with 80 parts water)
2. **Application:** Use for light maintenance to clean stains and dirt on workshop floors.

1:10

### General Degreasing

1. **Dilution: 1:10** (Mix 1 part Quick Break degreaser with 10 parts water)
2. **Application:** Perfect for tools, equipment, and other surfaces requiring efficient degreasing.

## Technical Data

- **Appearance:** Red, slightly viscous liquid
- **pH:** 10.5 to 11.5
- **Odour:** Mild citrus fragrance
- **Flammable Limits:** Not flammable

### Experience the Power of Quick Break Degreaser

Designed to meet the needs of heavy-duty industrial environments, Quick Break Degreaser combines powerful cleaning action with eco-friendly care. *Contact us today to place your order!*
